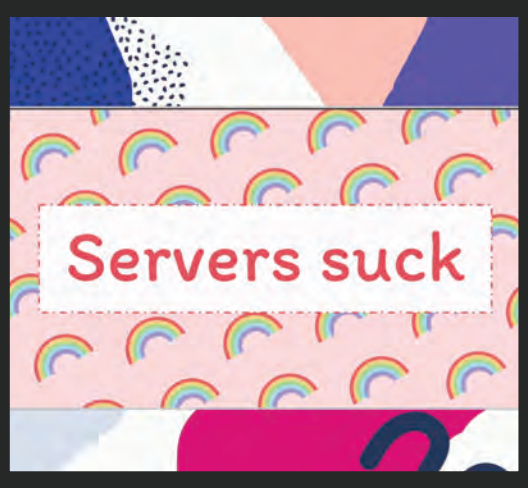
D.R.E.A.M.

DATA RULES EVERYTHING AROUND ME

A CONVERSATION SERIES BY NETIZEN & MOZILLA

Decentralizing the Web

with Tara Vancil



Imagine This: A Web Without Servers Tara Vancil 2018

One of the web's greatest features is its potential to be extremely decentralized. While possible in theory, in practice this isn't always the case. Web sites live on servers, and these servers are increasingly being controlled by a handful of monopolies.

But fear not! People like Tara Vancil are working to democratize and decentralize the Web. She's building tools and contributing to protocols in an effort to make it easy and fun to independently publish and share things on the Web.

Join us as we discuss contemporary cloud empires and how we can reconfigure and reimagine our digital environments with new technologies based on the foundational ideas of the Internet.

THU, JAN 31, 2018

Event Opens at 6:30PM
Conversation starts at 7PM

MAKE CITY
320 N Damen Ave., First Floor
Chicago, IL. 60612

FREE TICKETS: dream.netizen.org

Tara is the co-founder of Blue Link Labs, the team behind Beaker, a peer-to-peer Web browser, and Hashbase, a cloud peer service for files hosted with the Dat protocol. She built Cloudflare's App platform and is an alumn of the Recurse Center.

*Data Rules Everything Around Me (D.R.E.A.M.) is a **FREE & OPEN** conversation series facilitated by Nick Briz & Jon Satrom. Artists, writers, developers, and other cultural producers discuss their research and perspectives on the data that fuels the systems that run our world.*
