# D.R.E.A.M.

DATA RULES EVERYTHING AROUND ME

A CONVERSATION SERIES BY NETIZEN & MOZILLA

Debugging Bias in AI

with Margaret Mitchell

Artificial intelligence is being used to adjust our credit and price our insurance. "Predictive" algorithmic policing is amplifying existing human bias on our streets. Many machine learning experts can't explain why their software acts the way it does.

But fear not! People like Margaret Mitchell are working on ways to evolve artificial intelligence towards positive goals.

THU, APR 25, 2019

Event Opens at 6:00PM
Conversation starts at 6:30PM

MAKE CITY
320 N Damen Ave., First Floor
Chicago, IL. 60612

FREE TICKETS: dream.netizen.org

Margaret leads the Ethical Artificial Intelligence team in Google's Research & Machine Intelligence group. Her work combines computer vision, natural language processing, social media, many statistical methods, and insights from cognitive science.

Data Rules Everything Around Me (D.R.E.A.M.) is a FREE & OPEN conversation series facilitated by Nick Briz & Jon Satrom. Artists, writers, developers, and other cultural producers discuss their research and perspectives on the data that fuels the systems that run our world.
